Summary

"Enthusiastic Computer Science Engineering graduate with a strong foundation in Java Full Stack Development, skilled in building scalable web applications using Java, Spring Boot, and MySQL. Passionate about problem-solving and eager to contribute as a Java Full Stack Developer in a growth-oriented organization."

Education

BE in Computer Science (2022-2026)
Ponjesly College Of Engineering, Nagercoil.
"Affiliated to Anna University".
CGPA: 8.0

School
Christuraja Matriculation Higher Secondary School, Marthandam.
HSC: 75% **SSLC:** 71.8%

Skills

Programming Languages	Web Technologies	Database
Java, JavaScript	HTML, CSS, Bootstrap, Spring Boot	MySQL

Soft Skills	Languages Known
Problem Solving, Teamwork, Communication, Adaptability	Tamil, English

Internships

1. **Agile Info Tech -** Python Full Stack Development

Worked on basic web development using Python, HTML, CSS, and GitHub.

2. **Srishti Campus -** Python& Data Science

Learned fundamentals of data handling, Python programming, and basic data science concepts.

Projects

1. Weather Predictor - Java, Spring Boot, Weather API

•Developed a web-based weather application that provides real-time weather information for cities worldwide.

•Integrated Weather API to display temperature, humidity, and weather conditions dynamically.

2. Real-Time Traffic Prediction and Congestion Control - Python, XGBoost, OpenCV, Flask

•Developed a machine learning-based traffic prediction system using vehicle detection and traffic data analysis.

•Built a Flask web application to predict and monitor congestion levels in real time.

3. Healthcare Management System - Spring Boot, MySQL, HTML, CSS, JavaScript

•Developed a responsive healthcare web application with appointment booking and database integration.

•Implemented full-stack functionality using Spring Boot, MySQL, Hibernate, and Thymeleaf.
